Drinking set no.248 - "Loos"

design: Adolf Loos, 1931

drinking sets

The bar set. The architect Adolf Loos was ahead of his time with this clear, uncompromising concept of form. This tumbler service is made with a so called brilliant pattern on the base. Each line is still cut by hand and carefully matt-polished. This series paved the way for modern glass design and is another Lobmeyr classic since 1931.

LOBMEYR
