Some iconic designs seen in a new light

USM's modular Haller shelving system now comes with integrated lighting. Called 'Haller E', it's a triumph of sophisticated simplicity, rather like Lobmeyr's 'Drinking Set No.4', originally designed by Ludwig Lobmeyr in 1856. Look closely at this set and you'll notice hand-engraved 'cracks' in the glass, a witty embellishment dreamed up by legendary New York design gallerist Murray Moss. ★
