Chandelier 42797-8 "Orchid"

The Contemporary Family

Inspired by the delicate elegance of nature, the Orchid Light captures the ethereal beauty of floral forms. Its sculptural silhouette, reminiscent of gently unfurling petals, features a softly contoured underside that evokes organic, flowing folds. This interplay of light, shadow, and form creates a dynamic visual experience—both bold and weightless, striking yet serene. An influence of Neo Art Nouveau, it takes inspiration from biomorphic forms to craft a piece of functional art.

Crafted from high-quality brass metal sheets, the Orchid Light emits a warm, ambient glow that enhances its organic aesthetic. The light's delicate diffusion transforms any space, making it a versatile statement piece. Whether suspended above a dining table, illuminating an entryway, or accentuating a living area, the Orchid Light commands attention when lit and unlit. This duality reflects Bodo Sperlein's dedication to creating designs that elevate their surroundings with understated sophistication.

Design: Bodo Sperlein, 2025; Contemporary

Material: Brass; Finish: French Gold, brushed
